

CENTEGRA  
ANNUAL  
REPORT  
2016

**HONORING** OUR ROOTS, **EXTENDING** OUR REACH

 **Centegra**  
HealthSystem  
ALWAYS LOOKING AHEAD<sup>SM</sup>

# FROM THE CEO

For the first time, patients in southern McHenry County and northern Kane County had close-to-home access to hospital care when Centegra Hospital-Huntley opened Aug. 9, 2016. As Illinois' newest hospital and just the third new hospital in the state in more than 35 years, Centegra Hospital-Huntley represents a decade-long effort to bring our patients and their families the services they need, close to home.

This achievement was a result of the tremendous vision of the Centegra Health System Board of Governors. These selfless leaders give their time and talent to support high-quality health care in the community we serve. We are grateful to each of them for laying the groundwork that made Centegra Hospital-Huntley possible.

Centegra Hospital-McHenry and Centegra Hospital-Woodstock achieved national recognition in 2016 for quality, ranking among the best for providing safe, effective care. To ensure that same level of care is provided at Centegra Hospital-Huntley, the team staffed the new hospital with 50 percent current Centegra nurses and Associates.

This year the health system also extended services into communities like West Dundee, where a new immediate care center provided care to many first-time Centegra patients. We welcomed McHenry County Orthopaedics to Centegra Physician Care, and opened Centegra Aesthetica Plastic & Reconstructive Surgery Institute in Crystal Lake as well as Parabolic Sports Performance Lab at Centegra.

As we look ahead, the future of health and wellness in our community is brighter than ever. The Medical Staff, leaders and Associates of Centegra Health System are prepared to care for our community for generations to come.

Sincerely,

A handwritten signature in black ink that reads "Michael S. Eesley". The signature is fluid and cursive, with a long, sweeping tail on the final letter.

**Michael S. Eesley**  
Chief Executive Officer  
Centegra Health System

**HONORING**

# FROM THE BOARD OF GOVERNORS

As community members, Centegra Health System's Board of Governors, Medical Staff and Associates take great pride in providing health care to our families, friends and neighbors. We understand our region's needs and thoughtfully consider ways to help you improve your health and wellness.

In the past year you've watched us grow to reach new patients and communities while maintaining our dedication to the communities we've always served. The opening of Centegra Hospital-Huntley is a remarkable achievement, the newest entry on a list of accomplishments that dates back to the 1914 formation of the Woodstock Public Hospital Association, the region's first hospital.

Since then, our leaders have developed new services to meet our community's needs. We have recruited expert physicians, encouraged the professional development of our Associates and partnered with other health care leaders including Ann & Robert H. Lurie Children's Hospital and the Chicago Medical School at Rosalind Franklin University of Medicine and Science to bring the best care to our region.

As we look ahead to our potential partnership with Northwestern Medicine, we also take a moment to reflect on our accomplishments of 2016 as well as on Centegra Health System's rich history. That history is the foundation for Centegra Health System's future growth, our success and our commitment to high-quality care for our friends and neighbors.

Sincerely,

**Mike Curran**  
Chairman  
Centegra Board of Governors

# ACCOMPLISHMENTS AND ACCREDITATIONS

## **Centegra Hospital-Huntley Opens**

After more than a decade of planning, Centegra Hospital-Huntley opened Aug. 9, 2016. The new hospital ensures patients can receive expert care right in their own community. See page 7 for the complete story.

## **Internal Medicine Residency – Rosalind Franklin University**

Centegra Health System and the Chicago Medical School at Rosalind Franklin University of Medicine and Science worked throughout the year to offer an Internal Medicine Residency Program, which began with eight residents in July 2016. The residents are splitting their time between Centegra Hospital-McHenry, Centegra's outpatient facilities and with independent physicians and specialists.

## **Emergency Department LEAN – Rapid Improvement Initiative**

The Centegra Hospital-McHenry Emergency Department (ED) worked on a health system Lean Value Stream, defined as a sequence of connected monthly improvement events over 12 to 18 months. These four-day Rapid Improvement Events (RIEs) provide a facilitated structured approach for ED Associates, Physicians and other providers to give input and develop solutions to improve workflow and patient care processes.

## **Centegra Hip & Knee Replacement Center**

The Centegra Hip & Knee Replacement Center is in its third year of operation. In its inaugural year, the center performed 721 cases, an increase from 667 prior to the inception of the program. FY16 proved to be another successful year with 825 cases and a 91 percent patient satisfaction rate. The Centegra Hip & Knee Replacement Center opened the Total Joint Pre-Operative Clearance Clinic in July 2016 to provide patients a comprehensive evaluation in one convenient location, helping to reduce the surgical cancellation rate for patients who are unable to receive clearance in a timely manner.

## **Top 20 Hospital in Illinois**

U.S. News & World Report ranked Centegra Hospital-McHenry as No. 14 in the Best Hospitals in Chicago issue and No. 16 in Illinois. The hospital was high performing in the orthopedics and pulmonary disease categories. Centegra Hospital-Woodstock received the highest rating for its treatment of chronic obstructive pulmonary disease.

## **Truven Top Health System**

The Truven Top Health System compares health systems' levels of quality achievement and five-year rates of improvement in an effort to compare performance improvement strategies relative to other health systems across the nation. In the 2016 report, Centegra Health System ranked among the top in the nation, scoring an 80th percentile in quality performance and a 92nd percentile in rate of improvement.

## **Leapfrog Safety Recognition**

Centegra hospitals received "A" ratings in the Fall 2015 Hospital Safety Scores. The scores were announced by the Leapfrog Group, an independent nonprofit organization that drives quality, safety and transparency in U.S. health systems. The Hospital Safety Scores are released biannually and rate how well hospitals protect patients from preventable medical errors, injuries and infections within the hospital. In Spring 2016, McHenry received an "A" rating and Woodstock received a "B."

## **Emergency Department Information System Award**

Centegra was chosen by T-System as the recipient of its **Client Excellence Award** for 2015. Months of dedicated team collaboration and effort by many departments, most specifically the Emergency Department, Pharmacy, Nursing, Lab, Medical Imaging, Registration and IT went into ensuring a successful launch of the T-System July 14, 2015.

# ACCOMPLISHMENTS AND ACCREDITATIONS

## Healogics Center of Distinction

Centegra Wound and Hyperbaric Center was named a **Healogics Center of Distinction**, achieving or exceeding outstanding clinical and operational results in 2015 and 2016.

## 3-Star Rating

Centegra Hospital-McHenry achieved the **Society of Thoracic Surgeons 3-Star Rating** for the 2016 Fiscal Year. This was Centegra's fourth consecutive time to achieve a 3-Star Rating for the quality of coronary artery bypass surgery among hospitals across the country.

## ACC GWTG Platinum Performance Achievement Award

Centegra Hospital-McHenry again received the **American College of Cardiology Foundation's NCDR ACTION Registry-Get With the Guidelines Platinum Performance Achievement Award**. The award recognizes the hospital's success at providing a higher standard of care for heart attack patients. It shows Centegra Hospital-McHenry has reached an aggressive goal of providing the best-available cardiac care.

## Centegra Health System Foundation

The Centegra Foundation received increased participation and financial support through the annual Associate Giving Campaign. The Centegra System Leadership team supported the **Associate Giving Campaign** through 100 percent participation. In the past fiscal year, the Centegra Health System Foundation honored 68 requests for funding totaling \$2.25M toward various health system needs, including enhancement of patient services, new technology and numerous community screenings.

## Community Honors

Centegra Health System was honored at a special event that recognized organizations that have made our community a better place to live and work. The **Commitment to McHenry County Awards Dinner**, sponsored by the Northwest Herald, highlighted the ways our health system has improved the health and wellness of the community we serve. Centegra Health System received the Commitment to McHenry County Award for its dedication to innovative growth and exceptional quality.

# FINANCIALS & STATISTICS FY 2016

## COMMUNITY BENEFITS

# CENTEGRA HOSPITAL-HUNTLEY OPENS

After a decade of planning, Centegra Hospital-Huntley welcomed its first patients Aug. 9, 2016. As just the third new hospital in Illinois in more than 35 years, the facility completed Centegra's goal to provide community members access to a full range of health care services all on one campus.

"Patients want the best care right here close to home," said Michael S. Eesley, chief executive officer of Centegra Health System. "Our team lives here, works here and takes great pride in serving our friends and neighbors."

Centegra Hospital-Huntley is a 128-bed all-private room hospital that includes a Level II Trauma Center, 100 medical-surgical beds, eight intensive care unit beds and a 20-bed Family Birth Center. Pediatric inpatient specialists from Ann & Robert H. Lurie Children's Hospital of Chicago are on site around the clock to provide children access to the highest level of inpatient and emergency care. Patients receive care in state-of-the-art operating suites, and emergency and diagnostic care is provided in the cardiac catheterization laboratory.

The hospital's campus is also home to Centegra Health Bridge Fitness Center and a medical office building that offers Centegra Immediate Care, the Centegra Back & Spine Center, physician offices and outpatient services. A second medical office building is currently under construction and is expected to open in spring 2017.

"This unique campus now provides patients and families everything from wellness and preventive care to the highest level of acute medical treatment," Eesley said. "It is the culmination of years of careful planning to provide our patients and their families the care they need right in their own backyards."

More than 800 construction jobs were created in the two years it took to build the facility and over 50 percent of the subcontractors were from McHenry, Kane and Lake Counties in Illinois. Eesley said more than half of the new hospital's employees came from other Centegra locations, and at the time of the opening about 400 new jobs had been created. He expected that number to double as the hospital volumes increase.

Thousands of community members toured Centegra Hospital-Huntley in the months prior to its opening, taking advantage of events that welcomed them to look inside the Emergency Department, the Centegra Hip & Knee Replacement Center, the retail pharmacy and the made-to-order café. Eesley said the community's enthusiasm excited the entire Centegra team as they completed final preparations to open the hospital.

“OUR **VISION** HAS BECOME **REALITY**,  
AND WE LOOK FORWARD  
TO **SERVING** THIS **COMMUNITY**  
FOR GENERATIONS TO COME.”

## ECHOES FROM THE PAST

Centegra purchased 110 acres of property in Huntley in August 2006 with the intention to develop a campus that would bring sophisticated health care to the community. In 2008 the first two facilities on the campus opened. As Huntley and its surrounding communities continued to grow, Centegra Health System identified a need to build a full-service hospital to provide a higher level of care to patients and their families. In 2010 Centegra Health System filed an application for a Certificate of Need with the Illinois Health Facilities and Services Review Board to build an acute care facility in Huntley. The board approved the Certificate of Need in July 2012 and in February 2014 Centegra Health System broke ground on the new hospital.

The beam raising ceremony for the new hospital was held Saturday, July 12, 2014.

# QUALITY RESULTS, ENHANCED SERVICES

At Centegra Health System, **quality** is defined by the patient's experience.

From the first phone call to the last appointment, patients expect to receive excellent care. In 2016 Centegra achieved top honors for quality results and enhanced services to address patients' needs.

The **Truven Top Health System** evaluates system's level of quality achievement and five-year rate of improvement in an effort to compare performance improvement strategies relative to other health systems across the nation. In the 2016 report, **Centegra Health System ranked among the top in the nation**, scoring an 80th percentile in quality performance and a 92nd percentile in the rate of improvement.

The hospitals also received **four-star ratings** from the **Centers for Medicare & Medicaid Services (CMS)**, placing them among the top 22.5 percent of hospitals nationwide. Centegra Hospital-McHenry received a 0 percent readmission penalty and Centegra Hospital-Woodstock received a .18 percent readmission penalty, both which rank among the best in the nation.

Centegra hospitals received **"A" ratings** in the **Fall 2015 Hospital Safety Scores**. The scores were announced by the Leapfrog Group, an independent nonprofit organization that drives quality, safety and transparency in the United States. In addition, the hospitals achieved the **Get with the Guidelines Silver Plus Award for stroke**.

A new **Inpatient Behavioral Health** unit opened at Centegra Hospital-Woodstock to welcome patients into a modern space that also gives them access to acute medical care. The hospital's new **Psychiatric Emergency Services** provides patients more timely access to care when they need it the most.

**Centegra Hospital-McHenry** and **Centegra Sage Cancer Center** were among 20 accredited cancer programs across the nation to receive the **Outstanding Achievement Award** from The American College of Surgeons Commission on Cancer (CoC). The award recognizes programs that achieve excellence in providing quality care to people with cancer. Centegra's program was one of five that earned the award at four consecutive survey cycles (2007, 2010, 2013 and 2016). The award-winning programs represent approximately six percent of all programs surveyed.

**Amir Heydari, MD, FACS** was recognized as a **Metabolic and Bariatric Surgery Accreditation and Quality Improvement Program Verified Surgeon** for the Bariatric Program at Centegra Hospital-Woodstock. The team also achieved the **Comprehensive Center Accreditation**.

## ECHOES FROM THE PAST

Behavioral Health services were introduced in 1981 when Memorial Hospital joined forces with the Family Services and Community Mental Health Center. Inpatient Behavioral Health relocated to the Doty Road campus in 2015.

In 1987, Flight for Life became an on-site presence in McHenry, providing lifesaving care to patients throughout the region.

# POWERFUL PARTNERSHIPS

Community members had better access to additional health and wellness experts in 2016 thanks to powerful partnerships formed by Centegra Health System.

Centegra partnered with **Ann & Robert H. Lurie Children's Hospital of Chicago** to provide 24-hour pediatric hospitalist coverage at Centegra Hospital-Huntley (CH-H) when it opened in August 2016. Pediatricians from Lurie Children's are in the hospital 24/7 to coordinate inpatient care with each child's primary care physician and are also available to assist with pediatric emergencies in the CH-H Emergency Department. Community members also looked forward to the addition of a Lurie Children's outpatient clinic to the Huntley campus in the fall of 2016. Centegra also partnered with Lurie Children's to provide a higher level of pediatric cardiology and concussion care.

To support the education of the next generation of physicians, Centegra and the **Chicago Medical School at Rosalind Franklin University of Medicine and Science** partnered to offer an Internal Medicine Residency Program. The three-year program began with eight residents in July 2016. The residents spend approximately 50 percent of their time at Centegra Hospital-McHenry, and also will care for patients at Centegra's outpatient facilities and with independent physicians and specialists. The doctors who serve as faculty members were chosen because of their expertise within their fields. Eight additional residents will be welcomed to the program in 2017 and eight more again in 2018.

Athletes of all ages and abilities began to train at the **Parabolic Sports Performance Lab at Centegra**, which opened in February. Certified strength and conditioning specialists help clients reach their peak performance levels by customizing a training program for them. The youth performance training program, the high school athlete development and the adult performance training models offer a wide range of options for individuals and teams.

These partners broadened Centegra's ability to provide services that help families and educate new providers, demonstrating the health system's commitment to high-quality local health care.

## ECHOES FROM THE PAST

In 1995, Northern Illinois Medical Center in McHenry and Memorial Medical Center in Woodstock united to form Centegra Health System. Its name was created from "Cent," for keeping patients at the "center" of the care we provide and "tegra" for "integrity," "integral" and "integrated."

 **PARABOLIC**  
SPORTS PERFORMANCE LAB  
AT CENTEGRA

# CENTEGRA HEALTH SYSTEM SIGNS A **LETTER OF INTENT**

“A partnership between **Centegra Health System** and **Northwestern Medicine** would increase the depth of Centegra’s clinical capabilities, enhance possibilities for physician collaboration and improve efficiencies...”

On April 5, 2016, Centegra Health System and Northwestern Medicine announced the intent to affiliate by signing a non-binding letter of intent. If approved, this powerful union will combine Centegra’s exceptional community-based care with Northwestern Medicine’s world-class academic health care expertise.

Northwestern Medicine shares Centegra’s commitment to clinical excellence with a focus on patient-centered care. Its seven hospitals include Northwestern Memorial Hospital, which was ranked No. 1 in Chicago and Illinois as well as 11th in the nation according to the U.S. News & World Report 2015-2016 Honor Roll of America’s Best Hospitals.

The affiliation will go through a series of regulatory reviews and approvals before a final closing date can be determined.

“A partnership between Centegra Health System and Northwestern Medicine would increase the depth of Centegra’s clinical capabilities, enhance possibilities for physician collaboration and improve efficiencies to provide the best-possible care for patients and their families,” said Michael S. Eesley, Chief Executive Officer of Centegra Health System.

## ECHOES FROM THE PAST

Centegra Health System reinforced its commitment to enhancing the technology and healing environment for patients and families with the opening of the **Sage Cancer Center** in 2003.

In 2006, cardiologists at Centegra Hospital-McHenry performed the region's first **open-heart surgery**.

Centegra Health System  
Board of Governors, 2016

# CENTEGRA PHYSICIAN CARE EXPANDS

New specialties and services kept **Centegra Physician Care** and **Centegra Immediate Care** in the news in 2016. The practice continued to look for new ways to bring health care experts to local communities to give patients the care they need, close to home.

The October 2015 addition of **McHenry County Orthopaedics**, now known as Centegra Physician Care-McHenry County Orthopedics, to the employed practice brought eight fellowship-trained, board-certified surgeons to the Centegra Physician Care team. The health system was also proud to welcome their outstanding team of physical and occupational therapists, medical imaging specialists and other professionals to the Centegra family.

Another new specialty was added to Centegra Physician Care when **Centegra Aesthetica Plastic & Reconstructive Surgery Institute** opened in Crystal Lake. Plastic and reconstructive surgeon Saeed Chowdhry, MD and his team now offer in-office procedures for subtle changes as well as life-changing transformations through surgery at Centegra Hospital-Woodstock and Centegra Hospital-McHenry.

**Centegra Immediate Care** opened in **West Dundee** to introduce Centegra's high-quality care to patients who will be served by Centegra Hospital-Huntley. In addition to immediate care services, the new location includes physical therapy, occupational health and X-ray.

Bariatric surgeon Amir Heydari, MD brought two new surgeries to the region in 2016. He was among the first in the nation to use a minimally invasive procedure to insert the **Orbera® weight-loss balloon** in the stomach of a patient. Dr. Heydari also began to perform endoscopic revisions of weight-loss surgeries.

## ECHOES FROM THE PAST

In 1996 the first physicians joined **Centegra Primary Care**, the employed physician practice that has grown to become **Centegra Physician Care**.

Centegra's first **Immediate Care** locations in Crystal Lake and Huntley opened in 2008.

THE WHITE HOUSE  
WASHINGTON

July 30, 1956

TO THE GUESTS ASSEMBLED FOR THE  
BENEFIT OF THE NEW MCHENRY HOSPITAL:

I am continually impressed by the genius of America summed up in the phrase printed on the great seal of the United States: E Pluribus Unum.

To me, this stands for the wonderful variety in American society coming together with amazing power to work for the common good. In your part of the country, the farmers might call it "hybrid vigor."

Your new McHenry Hospital is a fine illustration of this kind of vigorous cooperation on a community-wide basis and, I am sure, it will yield big results.

**HONORING** OUR ROOTS, **EXTENDING** OUR REACH

The logo for Centegra Health System is centered on a blue background. It features a cluster of five white stars of varying sizes to the left of the text. The text "CentegraHealthSystem" is in white, with "Centegra" in a bold font and "HealthSystem" in a regular font. Below this, the tagline "ALWAYS LOOKING AHEAD" is written in a smaller, yellow, all-caps font, followed by a small "SM" trademark symbol.

**Centegra**HealthSystem
