

Northwestern Medicine Geriatrics Home Care

Compassionate, comprehensive care for patients who are homebound

The Home Care Program at Northwestern Medicine offers house calls to older adults from our board-certified geriatricians and nurse practitioners. Our office can answer your questions, process prescription refills, and help you and your family order home health and medical equipment.

Services we provide

Physician and advanced practice provider house calls

Assisted-living house calls

Coordination of care with hospitals, home health agencies and social services

Blood testing

Electrocardiograms (ECGs)

Gastrostomy tube changes

Vaccinations

Pulse oximetry (to measure the oxygen level of your blood)

Wound care

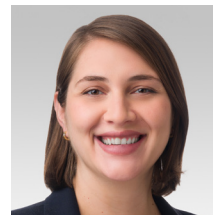

For more information about Home Care or to start services, call 312.695.2619 (TTY: 711), or visit nm.org/geriatrics.
