

Comprehensive Care for the Whole Family

Northwestern McGaw Family Medicine Residency at Delnor Hospital

At Northwestern Medicine, we are committed to better medicine, and that includes training the next generation of physicians to deliver better care to our patients. Through Northwestern University, we are privileged to host the Northwestern McGaw Family Medicine Residency Program at Northwestern Medicine Delnor Hospital.

Resident physicians partner with Northwestern University Feinberg School of Medicine faculty members who are fully licensed, board-certified physicians, often referred to as attending physicians.

Why choose family medicine

Choosing a primary care physician is important for you and your family's health and wellness. Our family medicine physicians provide comprehensive care for patients of all ages, from preventive medicine and treatment for minor injuries and illnesses to chronic disease management. If you need to see a specialist, we can connect you with the appropriate clinician and will continue to coordinate your care.

Location

**Northwestern McGaw Family Medicine
Residency Program**
298 Randall Road
Geneva, Illinois 60134
