PARKINSON'S DISEASE AND MOVEMENT DISORDERS CENTER

AUGUST 2022

Parkinson's Disease and Movement Disorder Center Monthly News and Updates

Parkinson's Disease Patient and Family In-Person Walk and Interview Opportunity

Join us for our first in-person event in more than two years on Thursday August 11th!

We are hosting a walk and outdoor get-together for people with Parkinson's disease, their family and friends.

The event will begin at Lake Shore Park where we will meet and walk around the park and proceed to the Lakefront Trail for those who wish. Water will be provided.

After the walk, we are looking for volunteers to be filmed and interviewed for a Parkinson's documentary by Parkinson's Across

America, as well as for the local news. Interviews will take place at Abbott Hall (710 N Lakeshore Dr. Chicago, IL 60611). This is an incredible opportunity to share your unique story and spread hope across the PD community.

You are still welcome to attend the walk if you don't wish to be filmed or interviewed. We will provide consent forms for those who wish to be filmed and/or interviewed. No one will be filmed without their knowledge and consent.

Please email Erin Cecchi at

AUGUST 9 Advanced Care Planning: Depression, Anxiety, Mood, and Parkinson's

Dr. Hamilton will discuss:

- The many facets and types of depression
- How to spot, understand, and manage anxiety
- The role neuropsychologist can play in helping you live better with Parkinson's
- How (or if) mood issues change or get worse the longer you live with Parkinson's
- When and how to treat depression and anxiety
- The latest in treatments, including nonpharmacological interventions for these mood-related issues?
- And much more!

AUGUST 17 Care Partner Program - Asking for Support & Building Your Extended Care Team

We invite people living with Parkinson's disease (PD) and their care partners who are unsure of how to engage their families or friends to join us for a discussion on building your informal or extended care team. Family members looking to learn more about how to support their loved one with PD will also garner useful perspective and strategies to help on the journey.

REGISTER HERE!

RACE TO IMPACT 2022

For a complete list of our groups and classes, including those offered at Central DuPage and Lake Forest Hospitals, click HERE!

Social Engagement: Singing with Parkinson's-Part 2

Research in both music therapy and neuroscience has shown that singing can improve Parkinson's symptoms. Neurologic Music Date: Wednesday, August 10 Time: 12 p.m. to 1:00 p.m. CT Where: Zoom Cost: FREE

REGISTER

Therapists design our Parkinson's Choir to address limitations and struggles that occur with PD. It's reported that participation in singing activities and music with a strong rhythm, has improved their gait, breath support, mood, motor control, and ability to perform consecutive tasks. Individuals at any stage of the disease are welcome and can benefit. Prior musical experience is not required but is a plus!
