

MYNM MINOR PROXY FORM
Request for MyNM Proxy (Full Access) for a Minor Patient Age 0-11

The purpose of this form is to request Northwestern Memorial HealthCare and its affiliates ("NM") provide me access to the protected health information ("health information") of a minor age 0-11 via MyNM. **This access is only permitted for parents or individuals with legal guardianship.**

A proxy can:

- View health information about the patient in MyNM, including diagnoses, medications, allergies, health history, treatment plans, test results, clinical notes, discharge instructions and After Visit Summaries
- Request medication refills
- Request, schedule and manage appointments
- Send secure messages to the patient's care team
- Utilize new functionality that may become available through MyNM in the future

Health information in MyNM is obtained from the patient's electronic medical record and may include health information from NM affiliates and other healthcare providers.

Once activated, the proxy will access the minor patient's digital health information through their own MyNM account. All MyNM users must read and agree to the NM Digital Services Terms and Conditions prior to use.
