AUGUST 10 2023

Dr. Stein exemplifies many of the most important things I look for in a doctor. He reviewed records ahead of time but then wanted to hear details from me. He was clear about the limits of his knowledge of my condition and helped me find a provider better suited to my case. He has insight into frustrating aspects of medical care. And most important he didnâ€™t seem to be rushing on to the next thing on his plate. I felt important which it seems like you should always feel but sadly this is missing so often in healthcare.

AUGUST 3 2023
